

**FEED THE FUTURE**

The U.S. Government's Global Hunger & Food Security Initiative

May 10, 2018

# FTF Accomplishments & Global Food Security Strategy Overview

## FTF Ghana Strategy

- **Increase agriculture productivity**

- Value chain facilitation
- Technology transfer
- Commercial agriculture
- Finance & investment
- Policy reform

- **Increase resiliency**

- Sustainable management of marine fisheries
- Natural resource management
- Financial inclusion

- **Improve nutrition**

- Increased adoption of nutrition-related behaviors at household level
- Expanded access to quality foods for women and children
- Addressing causes of anemia

focus on  
**marine  
fisheries  
and  
nutrition**

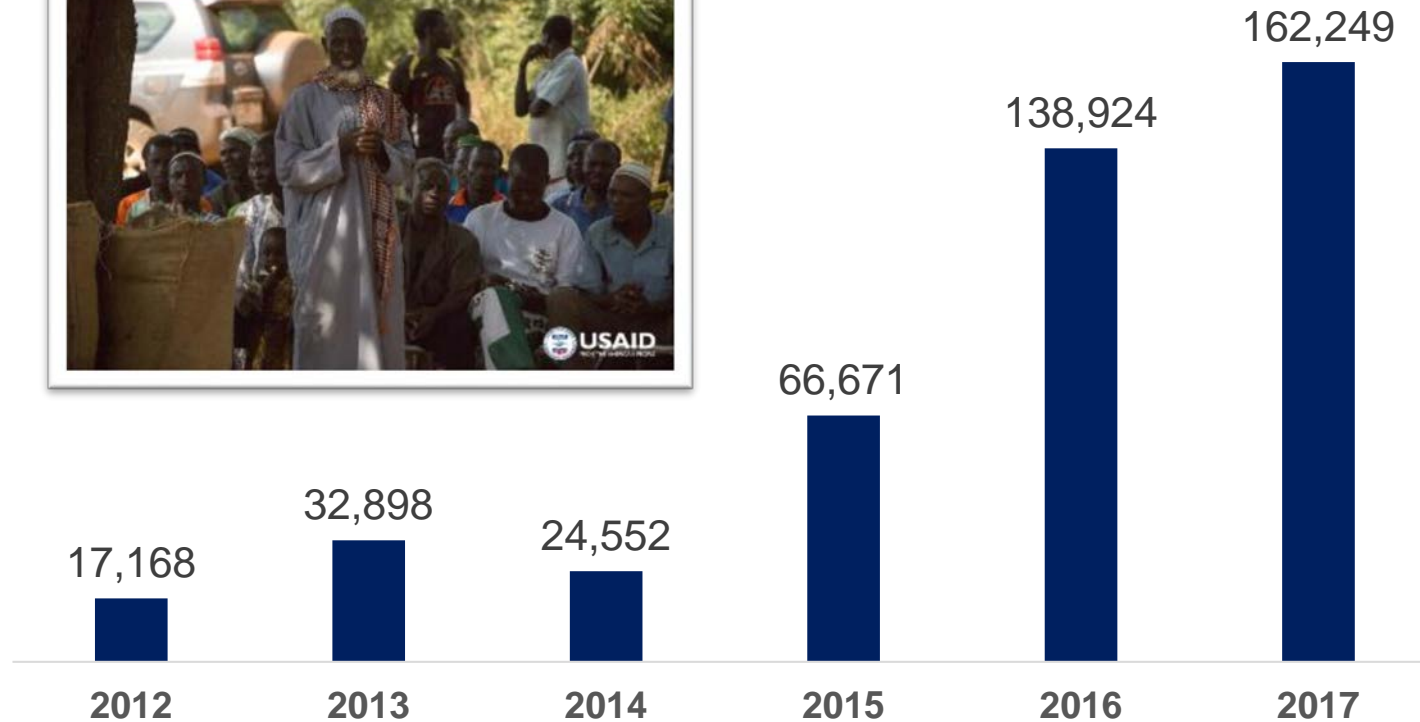

Main focus in  
NORTH on: **rice,**  
**maize, soya**  
**value chains;**  
**nutrition;** and  
household  
**livelihoods**

**NATIONAL Health**  
**Program** on behavior  
change re nutritional  
practices

### Number of households benefiting directly from USG assistance under Feed the Future

## Application of Improved Technologies and Management Practices

## Average Yields

## Village Savings & Loans Associations (VSLAs)

Number of Women Supported

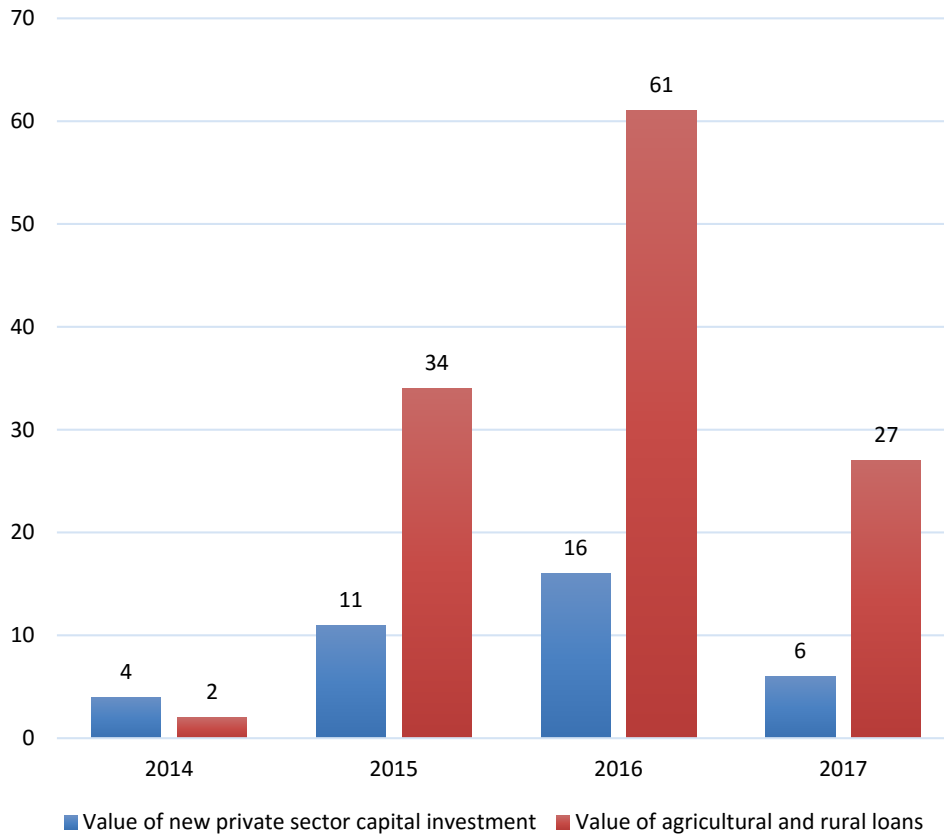

Number of Groups Supported

## VSLA Amount Saved vs. Loaned

## Agricultural Loans & Private Sector Investments Leveraged

## Gross Margin Per Hectare

# FEED THE FUTURE

The U.S. Government's Global Hunger & Food Security Initiative

## Improved Marine Fisheries Management

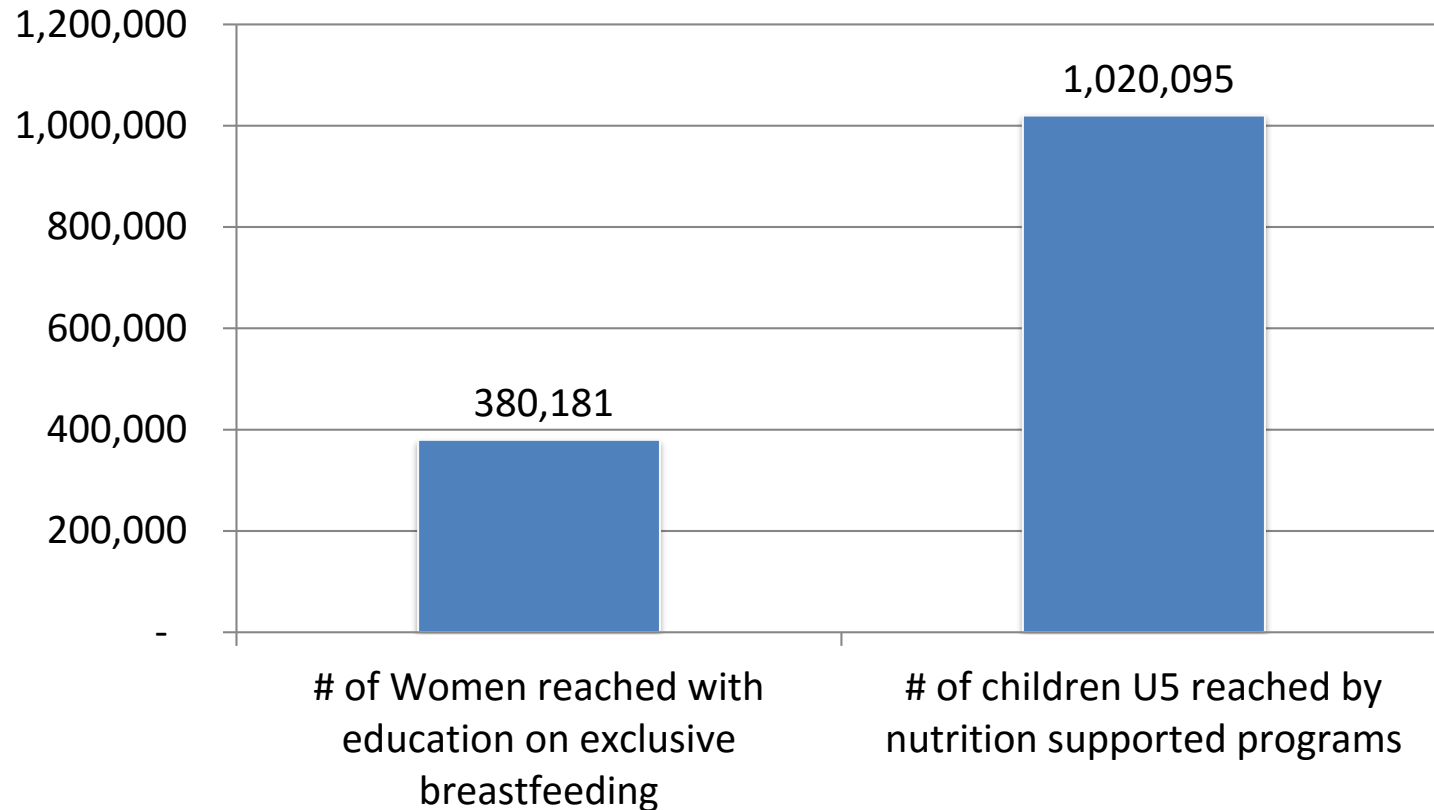

- Strengthened Enabling Environment for Marine Resource Governance
- Increased Use of Applied Science to Inform Decision-Making
- Improved Constituencies for Policy Reform and Sustainable Use Practices

## **GHANA**

# Global Food Security Strategy Country Plan 2018-2022

## **OVERVIEW**

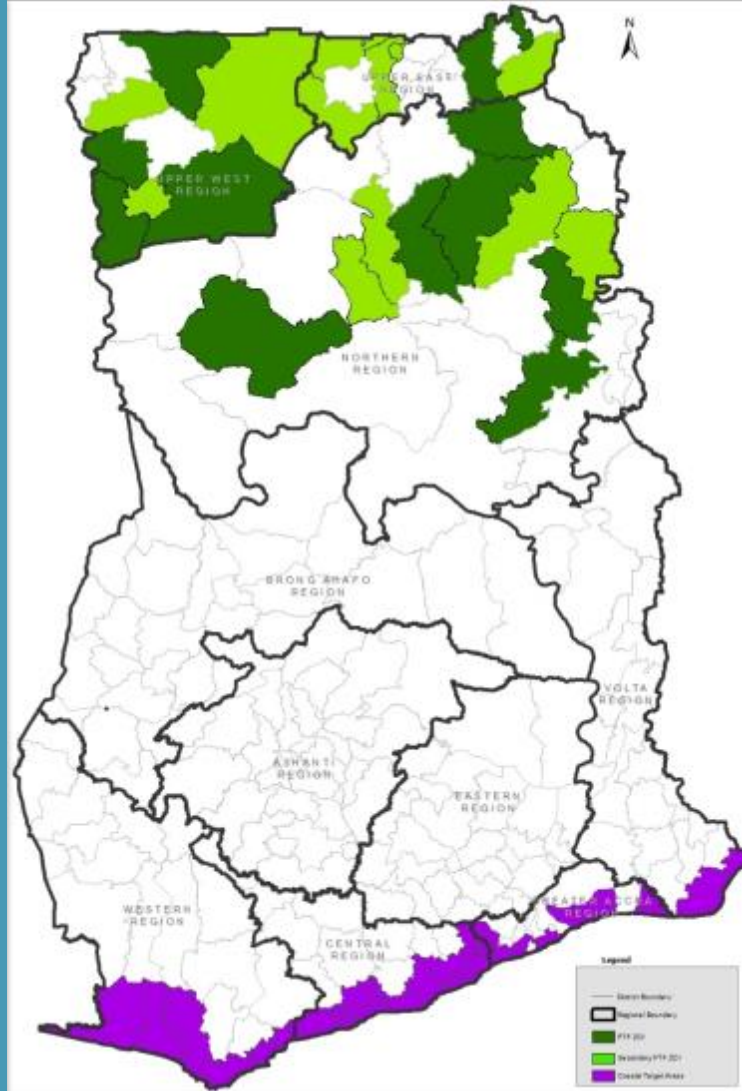

### ZOI Selection Criteria:

- Poverty, stunting, and wasting
- Hectares under production of targeted crops
- Natural resource corridors
- Gains made by FTF projects
- Donor saturation and complementarity of interventions
- Government of Ghana consultations

### Trade Acceleration:

Liberalize and facilitate trade  
Increase investment in high-value commodities

Ghana FTF ZOI Map II

**15-20 Districts in Northern Ghana:**  
**Maize, soybean, groundnut, cowpea; shea;**  
Nutrition and household livelihoods

**Collect PBS**

**National level:**  
Health System Strengthening;  
Enabling environment;  
Capacity building

**Coastal Area:**  
Focus on **marine fisheries**

## GOAL: Sustainably reduce global hunger, malnutrition and poverty

**OBJECTIVE 1**  
Inclusive and sustainable agriculture-led economic growth

**OBJECTIVE 2**  
Strengthened resilience among people and systems

**OBJECTIVE 3**  
A well-nourished population especially among women and children

**IR 1**  
Increased agriculture productivity and profitability

**IR 2**  
Strengthened markets and trade

**IR 3**  
Increased access to business development and financial services particularly for women and youth

**IR 4**  
Improved risk mitigation and management

**IR 5**  
Improved adaptation to and recovery from shocks and stresses

**IR 6**  
Increased consumption of nutritious and safe diets

**IR 7**  
Increased use of nutrition-specific services

**IR 8**  
More hygienic household and community environments

## CROSS-CUTTING INTERMEDIATE RESULTS

**CC IR 1** Strengthened global commitment to investing in food security

**CC IR 2** Improved climate risk, land, marine, and other natural resource management

**CC IR 3** Increased gender equality and female empowerment

**CC IR 4** Increased youth empowerment and livelihoods

**CC IR 5** More effective governance, policy, and institutions

**CC IR 6** Improved human, organizational, and system performance

**CC IR 7** Enhanced monitoring and evaluation and data-driven decision-making

# FEED THE FUTURE

The U.S. Government's Global Hunger & Food Security Initiative

## Strategy components

Agricultural Productivity

Competitive Market Systems

Access to Finance

Country Leadership

Resiliency

Improved Nutrition

Economic Inclusion

Country Leadership

- Mutual accountability
- Increased and sustained commitment to food security
- Improved private sector enabling environment
- Strengthened local governments
- Enhanced inter-ministerial coordination

Economic Inclusion

- Empowered women and youth with economic freedom and independence
- Equitable agricultural and fisheries sectors
- Engaged citizens demanding rights and influencing policy

Agricultural Productivity

- Increased access to and application of technologies and management practices
- Expanded availability of information
- Increased productivity of marine fisheries

Competitive Market Systems

- Strengthened forward value chain linkages
- Improved post-harvest handling
- **Increased trade**

Access to Finance

- Increased access to finance by households, smallholder farmers, artisanal fishers, and “the missing middle”
- Diversified financing options

Resiliency

- Increased household assets and savings
- Improved access to natural resources
- Diversified livelihoods and market opportunities
- Responsive local governments

Improved Nutrition

- Multi-sectoral approach that effectively layers nutrition, agriculture, and WASH interventions with focus on 1,000 day window
- Focus on behavior change to ensure links between increased incomes, nutrition-sensitive agriculture, and improved nutrition outcomes, including:
  - Improved livelihoods/income for women
  - Increased consumption of safe, diverse, and nutrient-rich foods
  - Increased adoption of WASH practices
  - Improved quality of nutrition-specific counseling services
